

PRECISION LIGHTING FOR EVERY SPACE

From discreet architectural fixtures to powerful outdoor systems, our general lighting range combines technical excellence with design flexibility. Carefully selected to meet the highest standards, our solutions adapt to every environment – indoor or outdoor, minimal or expressive – and support lighting designers and professionals at every scale.

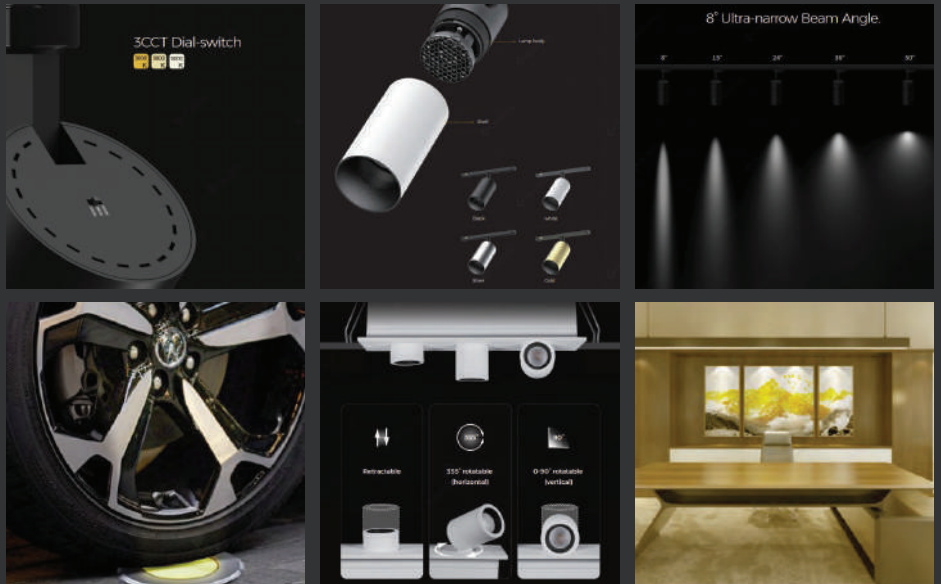

OUR GENERAL LIGHTING SOLUTIONS INCLUDE:

- Surface-mounted and ceiling lights – Durable designs for a variety of indoor and outdoor applications.
- Linear lighting systems – Wall-mounted or suspended, ideal for clean, architectural lines.
- Track lighting – Offered in surface-mounted, suspended configurations, and recessed with or without trim.
- Outdoor lighting – A complete range including bollard and pole fixtures, wall washers, flood lights, and spike lights for landscape, facade, and area illumination.
- Architectural wall lighting – Wall-mounted and recessed solutions for facades and ambient applications.
- LED strip lighting – High-performance strips with full accessory compatibility for both indoor and outdoor use.
- LED strip profiles – Designed for varied applications and atmospheres, from accent lighting to functional task zones.

CUSTOMIZABLE TO EVERY PROJECT'S NEEDS

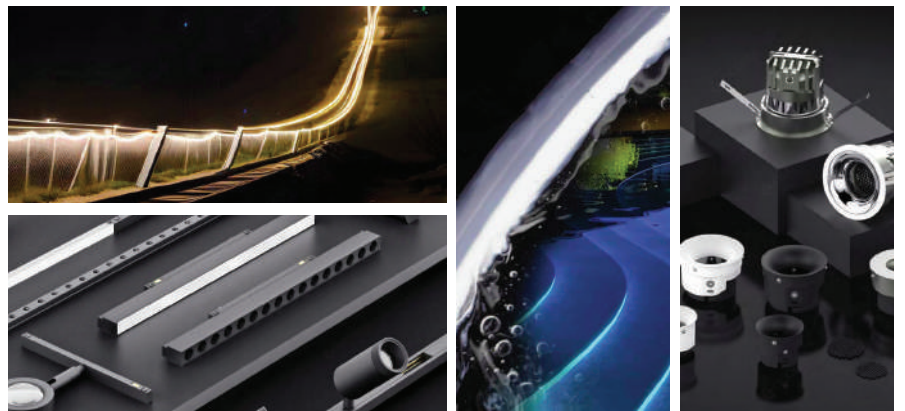

Our general lighting range is engineered for flexibility and performance. Whether you are working on residential, commercial, or landscape projects, we provide:

- IP ratings suited for both indoor and outdoor environments.
- A wide range of color temperatures, including 3-CCT dial options for on-site adjustability.
- Multiple beam angles to suit general or accent lighting.
- Anti-glare filters for optimal visual comfort.
- CRI 90+ options to ensure color fidelity and clarity.
- A selection of decorative and reflective trim finishes to suit both modern and classic aesthetics.
- Track light sizes and outputs tailored to different ceiling heights and lighting demands.
- And products meeting IK ratings for impact resistance in high-traffic or outdoor areas

SMART LIGHTING SOLUTIONS

We support both wired and wireless smart lighting systems, offering flexibility for new builds or retrofits. Our solutions can also be fully integrated into broader home automation platforms — allowing centralized control of lighting, climate, shading, and more.

EXPERT GUIDANCE AT EVERY STEP

At Rasma Decor & Trading, we go beyond supplying high-quality lighting — we partner with architects, interior designers, and project owners to ensure every lighting solution fits the project's function and aesthetic. From technical coordination to product selection, we provide professional insight and tailored support, helping you deliver refined results with confidence.
